PRESIDENT'S MESSAGE

Dear Friends and Donors,

As we reflect on the 2024–2025 academic year, our hearts overflow with gratitude and hope. This was more than a year of progress — it was a year of transformation. We welcomed new students into our family, celebrated milestones with our scholars, and watched young minds across Nepal rise with confidence and purpose.

Because of you, they didn't just stay in school — they soared. They rose above challenges. They discovered their voice. They dared to dream bigger.

With your belief in us, we launched new partnerships, strengthened our programs, and brought hope to the hearts of families who once feared their children would have to give up their education. In every classroom we reached, in every young soul we uplifted, your impact echoed.

Thank you for believing in our vision and standing with us. Your generosity continues to change lives — one scholarship, one story at a time.

NABIN SAUD

PRESIDENT

OUR STORY SO FAR

FROM A SIMPLE IDEA TO REAL CHANGE

It started with a question:
What if just one student didn't have to drop out?

That simple idea turned into a spark.
And that spark has grown into something real — something powerful.

At Trinket For Education, we've always believed that access to education is just the starting point. Over the past few years, we've proudly supported dozens of students across the country, not only with scholarships but with something far more powerful: belief — in their potential, their dreams, and their right to thrive.

We've seen young minds like Riya, Ashok, and Pratigya rise above difficult circumstances to pursue careers in architecture, science, and law. We've seen shy children become school leaders, rural students discover technology through Project Computer, and artists find their voice. And still — we knew that funding alone wasn't enough.

Because the truth is,
The system itself needs healing.

So, in 2024, we launched Project Research — a bold initiative to dig deeper into the root challenges of Nepal's educational structure. Through this fellowship program, we are funding long-term studies to understand why students drop out, how social pressures affect learning, and what changes could make education more inclusive, modern, and effective.

We are no longer just helping students survive the system.
We are working to change the system — brick by brick, data by data, and story by story.

No child should be told they're not smart enough just because they learn differently.
No talent should be wasted because of a broken system.

AND THIS IS WHERE YOU COME IN

This is our story.
But it's also yours — because every time you donate, you change the plot.

You keep a girl in school.
You help a boy graduate from school.
You fund research that could shift an entire country's education system.

And if that doesn't give you chills — you probably want to read it again.

If that didn't make you pause — read it again.
And if it did, don't stop there.

👉 [DONATE @trinketforeducation.org]

82%

OF STUDENTS SUPPORTED BY TFE ARE FIRST-GENERATION LEARNERS.

YOUR SUPPORT DOESN'T JUST CHANGE THEIR FUTURE — IT CHANGES THEIR FAMILY'S FUTURE TOO.

Financial Summary

Category	Amount(USD)
Total Donation	$3338.26
Total Expenses	$2945.19
Inherited Balance	$2293.20
Carryover to 2025	$2748.27

In 2024, your generosity made it possible to:

- Fund 10 student scholarships
- Launch and maintain Project Computer
- Lay the foundation for Project Research

FUNDS RAISED

$3338.26

PROJECTS	DETAILS	OUTCOME
Scholarships	Tuition, books, and school supplies for 10 students	Every student remained enrolled and completed the school year
Project Computer	Monthly teacher salary to launch digital learning in a government school	Computer classes now running weekly for Grades 6–8
Project Research	First year of research fellowship announced	Sarada Dhakal and Bijay Shrestha have joined as inaugural fellows and will begin their research this year. We are continuing to onboard additional researchers for the 2025 launch.

WHERE YOUR DONATION GOES

70%

Direct Student Support:
Scholarships, exam fees, school supplies, mentorship, and emergency education costs

20%

Special Projects:
Project Computer (tech education) and Project Research (education reform fellowships & research grants)

10%

Administration:
Basic essentials: website maintenance, annual report production, communication & transparency tools

For every $10 you give:
$7 funds a child's education
$2 builds future-forward projects
$1 keeps TFE running smoothly

TRINKET FOR EDUCATION

STORIES OF IMPACT

Each donation, regardless of its size, has a profound impact on the lives of the students we support. Here are a few stories of how your generosity has made a difference.

SARTHAK PANT

SCHOLARSHIP AWARED: $345

Sarthak Pant, now in Grade 7 at International Public School, is one of our new students. His tuition is fully supported by TFE, giving him the opportunity to learn in a school with better teaching tools and academic programs.

AASISH BK

SCHOLARSHIP AWARED: $114

Aasish BK wants to become an engineer. He recently completed Grade 6 at Shree Bhanodaya Basic School with a GPA of 3.45. TFE continues to support him as he studies in Grade 7, working hard in math and science.

RABI GAHATRAJ

SCHOLARSHIP AWARDED: Award

Rabi Gahatraj has a strong interest in business and hopes to become an entrepreneur in Nepal. He completed Grade 7 at Shree Bhanodaya Basic School with a GPA of 3.29. TFE is supporting him as he continues to grow and chase his dream.

PRATIGYA THAPA

SCHOLARSHIP AWARDED: $114

Pratigya Thapa, a dedicated student with dreams of becoming a lawyer, completed Grade 7 last year with an impressive GPA of 3.66. With the help of TFE, she is now in Grade 8 at Shree Bhanodaya Basic School.

ROJIT SARKI

SCHOLARSHIP AWARDED: $163

Rojit Sarki is a quiet and thoughtful student studying in Grade 7 at Shree New Saraswati School. Coming from a low-income background, his schooling is fully supported through private sponsorship. His calm nature and growing confidence make him a joy to support.

STORIES OF IMPACT

Each donation, regardless of its size, has a profound impact on the lives of the students we support. Here are a few stories of how your generosity has made a difference.

BIRAJ BIST

SCHOLARSHIP AWARDED: $160

Biraj Bist is a quiet and focused student in Grade 7 at International Public School. This is his first year under TFE support. He is adjusting well and taking full advantage of the learning resources available.

PUSPA SAUD

SCHOLARSHIP AWARDED: $117

Puspa Saud is a dedicated Grade 9 student at Shree Panchakanya Vidyashram. She works hard in her studies and often takes on leadership roles in her class. With support from TFE, she continues to move forward and set a great example for others.

ASMITA PANT

SCHOLARSHIP AWARDED: $235

Asmita Pant is a Grade 9 student at International Public School. She is focused and motivated to take advantage of the new resources around her. With support from TFE, she is stepping into a stronger academic environment.

DIYAN GHALA

SCHOLARSHIP AWARDED: $115

Diyan Ghalan is an energetic student with a passion for music and performance. He completed Grade 6 with a GPA of 3.14 at Shree Bhanodaya Basic School and is now continuing in Grade 7 with full support from TFE.

.

BABITA BHATT

SCHOLARSHIP AWARDED: $240

Babita Bhatt, a Grade 7 student at International Public School, is eager to learn and full of potential. Her scholarship from TFE ensures she can stay in school and work towards her dreams.

CHALLENGES WE FACE

2024 Achievements

2024 has been a year of bold growth and big steps forward for TFE. With your support, we were able to fund 10 students from different parts of Nepal, continue our support for returning 8 scholars, and launch new programs that go beyond tuition.

This year, we didn't just keep students in school — we also planted seeds for long-term change.

💻PROJECT COMPUTER

We launched Project Computer to bring digital skills to classrooms that never had them.
At Shree Bhanodaya School, students now have their first computer teacher — because of you.

Next step? Taking it to 2 more schools.

📚PROJECT RESEARCH

We're launching Project Research — a fellowship that funds deep studies into Nepal's education system.
Why do students drop out? What skills are missing?
We want answers — and we're building the team to find them.

FUTURE GOALS THAT DRIVE US

AS WE MOVE FORWARD

We don’t just want to support more students; We want to raise the bar for what education can look like in Nepal. We want rural students to sit in front of a computer for the very first time — and not feel behind. We want researchers to ask real questions about why students are being left behind, “ and be funded to find the answers.” We want students from every corner of the country — not just city centers — to have a real shot at finishing school.

So as we move forward into 2025, here’s what we’re building:

- A bigger, braver student scholarship program that reaches students in overlooked places
- Project Computer expanded to more schools so digital learning becomes normal, not rare
- Project Research fully funded and active, with fellows creating real data to shape future policy
- Deeper partnerships with schools, communities, and local leaders
- A stronger donor base, because we know none of this works without you

Our goals are ambitious, but so are the dreams of the kids we serve.

With your help, we’ll keep pushing boundaries, closing gaps, and creating something better than what came before. Not just for one student. Not just for one year. But for generations.

CALL TO ACTION

Every number you've seen in this report is real.
Every story you've read is true.
And behind every student, there's someone like you who decided to care.

Right now, there are more students waiting— more dreams we haven't yet reached.
With your help, we can say "yes" to the next child who needs a chance.

Your support is more than money.
It's belief.
It's power.
It's proof that kindness still wins.

So thank you for standing with us.
Now let's go even further — together.

Here's what your donation can do:

- $30 can cover exam fees
- $100 can buy school supplies for an entire year
- $350 can support a full year of tuition at a top school
- $1,500 can fund a research fellowship that changes the system

Donate today at trinketforeducation.org
Even the smallest amount can rewrite someone's future.
